

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. In addition, there are already so many public spaces that have been violated by the use of cell phones: buses and railroads, restaurants and waiting rooms have become places of unpleasantness because cell phones are allowed in them. Plane rides are opportunities for a few hours of rest and need to remain so.

Please leave the current rules in effect.

Sincerely,

Diane Pagen
